---

My name is Pierce Jorgensen. I'm a music producer and programmer. Electronic music has been a huge part of my life ever since I was young. I grew up listening to artists like Above & Beyond, Adventure Club, Skrillex, DeadMau5, and Eric Prydz. Music is in my blood.

I was born in San Diego, and I've lived in many places across the U.S. After I graduated, I moved to the East Coast to work in Aerospace. I've been very fortunate to be in this field. I even got to work at the Kennedy Space Center, which was a life-long dream of mine. Living on the Space Coast was really awesome, and I enjoy being in Florida, but I would live anywhere for a career in music.

Insomniac would be the perfect job for me. I want to give back to the community that helped me find myself, and show others the importance of peace, love, and unity by making experiences that matter. I want my work to align with my values, just as much as my personal life. To that end, below is a list of the values I hold and how I choose to live my life.

1. Choose not to harm.
2. Respect nature, respect others, respect yourself.
3. Work first, play second.
4. Never stop learning.
5. Don't try to be better than others, be better than yourself.
6. Don't judge by first impressions.
7. Trust your intuition.
8. Stand up for others and yourself.
9. Always be willing to forgive, but know when to walk away.

Thank you for taking the time to review my resume! Looking forward to working with you!

Respectfully,

*Pierce Jorgensen*
